

## modular construction

tiguar rack line was designed to make it possible to expand it with additional modules that can be freely combined with each other to create customized constructions.

**MADE IN POLAND**

Base racks are characterized by a full structure (two legs and shelves) and can be used as a stand-alone element or as a base for a two- or multi-module rack. Rack modules consist of one leg and two shelves, which are mounted to the leg of the base rack.

↑ rack

### kettlebells

capacity: 10 pcs kettlebells
